

# **Just Outsourcing Acquires Outsourcing Directory**

*Just Outsourcing acquires growing database of outsourcing companies and independent service providers.*

Sacramento, CA March 11, 2011

Just Outsourcing has acquired outsourcing-directory.net and outsourcing-companies.net.

Just Outsourcing is pleased to announce its acquisition of outsourcing-companies.net and outsourcing-directory.net. Both domains point to Just Outsourcing's Directory - a world-wide catalog of outsourcing companies and individual service providers. The purpose of the acquisition was to further develop an extensive resource for outsourcing buyers, and to provide advertising solutions for outsourcing companies and service providers.

“We want to achieve this aim by connecting buyers searching for specific outsourcing services with the companies and providers that provide them” states Nicole Miller, administrator of Just Outsourcing. “Being a part of Just Outsourcing, the directory is now much more than a directory, as it represents a real source of free information about the outsourcing business.”

Just Outsourcing is an Internet-based information and referral service providing online outsourcing news, outsourcing information, and outsourcing updates by the author of Outsourcing Through RentACoder.
